PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in GenAI systems, RAG pipelines, and automation workflows. Skilled in building agent-based solutions and functional AI prototypes for real-world applications, with a strong interest in the GenAI and automation domains.

KEY SKILLS

- **Languages:** Python, Java, SQL
- **Concepts:** Data Structures, OOPS concepts, Problem Solving, Logical Reasoning
- **AI / ML:** RAG, Embeddings, LLM Integration, Model Context Protocol (MCP)
- **Tools:** LangChain, Langgraph, Agno, FastAPI, Qdrant, Docker, Git, n8n

INTERNSHIP EXPERIENCE

GenAI Intern | Maarga Systems

May 2025 – August 2025

- Built RAG pipelines in Python with focus on retrieval accuracy and query performance optimization.
- Developed multi-agent workflows for automation and enterprise data processing tasks.
- Implemented transcription services and production-ready APIs using FastAPI and Docker.

PROJECTS

Major Projects

Schemora.ai

Tech Stack: Groq / Llama 3.3 70B, Faker, HTML5, CSS3, JavaScript

An AI tool that semantically parses SQL DDL schemas and generates up to 10,000 referentially consistent rows per table, using topological sorting to resolve foreign key dependencies. Used an LLM API for semantic column-to-data-type mapping, with a structure-hashed LRU cache that skips redundant LLM calls on unchanged schemas — cutting LLM API costs by up to 90% on repeated runs.

github.com/gokubuilds/Schemora.ai

Restaurant FAQ Chatbot

Tech Stack: LangChain, FAISS, SQLite, Streamlit, Ollama, FastAPI, Python

Developed a RAG-based support system enabling customers to query menus and live offers, achieving **80% retrieval accuracy** with a response latency range of **1–1.5 seconds**. Built backend logic in Python with FastAPI, featuring an admin panel for dynamic knowledge base management via file and text uploads.

github.com/gokubuilds/restaurant_faq_bot

Mini Project

n8n Automation Workflows

Tech Stack: n8n, OpenAI Whisper, Google Drive API

Designed integrated automation pipelines: a Google Drive-monitored transcription system and integrated telegram bot ui that transcribes and summarizes audio files into concise key points.

EDUCATION

B.E. Computer Science and Engineering

2023 – 2027

Prince Dr. K. Vasudevan College of Engineering and Technology

GPA: 8.1 / 10

Senior Secondary (CBSE)

2023

Prince Srivari Senior Secondary School

Class XII: 86.4% | Class X: 89.2%

ACHIEVEMENTS & ACTIVITIES

- **Team Leader:** Smart India Hackathon (Internal Round)
- **Participant:** Google Solution Challenge — AI Agents Workshop
